

FEDERATION OF EGALITARIAN COMMUNITIES

Roadmap to Utopia Internship

Spend your summer with the Federation of Egalitarian Communities and a host of experienced communards as they work to rapidly expand the network of radically egalitarian communes. You'll be pulling together years of research, experience, and resources from communes and communards around the world into a series of guides to help others catalyze the successful creation of robust, engaged, transformative, egalitarian communities.

This is a vagabond internship so expect to travel light and frequently. All your travel and basic needs will be covered by the project or your host communities and collectives supplemented by a small stipend for luxuries (similar to that of the communards you will be working with). During your internship you'll spend time at or visit:

- Acorn Community - Central Virginia
- Twin Oaks Community - Central Virginia
- Sapling - Central Virginia
- Cambia - Central Virginia
- Living Energy Farm - Central Virginia
- AC*DC - Washington DC
- Baltimore Free Farm - Baltimore MD
- The Holy Underground - Baltimore MD
- Quercus - Richmond VA
- Ganas - Staten Island NYC
- The Fae - Staten Island NYC
- ...and be introduced to many others.

You will be working closely with GPaul Blundell, the lead Point A organizer for DC and a long time communard, on the development of a series of print and online guides to help communards to be navigate the tricky territory on the way to a deep rich communalism and solidarity.

Experience with layout and graphic design helpful. Experience with wikis helpful. Personal computer helpful. Ability to quickly integrate and organize information in an easily digestible way a must. Please provide a writing sample with your application.

Join us as we build the new world in the shell of the old!

Start and end dates flexible. Questions? Email gpaul@thefec.org
