

# USACYC

Do you want to connect to other youth & young people in the cooperative movement? Interested in how coops & social justice intersect? Well - you're in luck!

The USA Cooperative Youth Council is fully sponsoring a cohort of 20 youth to attend the Association of Cooperative Educators' Annual Institute in Austin, Texas!

Apply here: [s.coop/acecohort2014](http://s.coop/acecohort2014)

If selected to the cohort, you will get the opportunity to connect with the rest of the group before, during, & after the Institute to learn from each other, for some planning & brainstorming around youth involvement, cooperative education, & the role of coops in building the new economy. We encourage people with all levels of cooperative knowledge & engagement, from all sectors, & across all the regions of the country to apply. **People of Color, Women, Trans\* folks, & Working Class peoples are encouraged to apply.**
