

FEDERATION OF EGALITARIAN COMMUNITIES

Media Intern for the Revolution

Come work for the summer on the transformational projects of The [Federation of Egalitarian Communities' Point A project](#) as they work to inspire and organize egalitarian income sharing communes up and down the East Coast. Help the intrepid Point A crew get the word out by writing blog posts, shooting video for project promotion and crowd funding, logistics organizing for conferences and social events, and online event promotion via Facebook and other platforms.

This is a vagabond internship so expect to travel light and frequently. All your travel and basic needs will be covered by the project or your host communities and collectives and there will be a small stipend for luxuries (similar to that of the communards you will be working with). During your internship you'll spend time at or visit:

- [Acorn Community](#) - Central Virginia
- [Twin Oaks Community](#) - Central Virginia
- [Living Energy Farm](#) - Central Virginia
- The Keep/Point A DC
- Slow House 2 - Brooklyn NYC
- [Baltimore Free Farm](#) - Baltimore MD
- [The Wingnut](#) - Richmond VA
- [Ganas](#) - Staten Island NYC
- The Fae - Staten Island NYC
- ...and be introduced to many others.

You will be working closely with [Paxus Calta](#) and [GPaul Blundell](#), the lead Point A organizers (for NYC and DC respectively), on the development of media and on event logistics. Both are experienced organizers, cooperators, and activists. You will also be working closely with Connor Scalzi, a member of Point A DC and a professional video editor, on the production of videos.

Experience with digital video recommended. Personal laptop computer preferable. Personal digital video camera a plus. The project will provide any other necessary equipment.

Join us as we build the new world in the shell of the old!

Start and end dates flexible. Questions? Email gpaul@frompointa.org.
